Kiptoo Egidius

Nairobi, Kenya

Email: egidiusrono@gmail.com

Objective

Enthusiastic and committed software development student at KCA University, seeking to leverage academic knowledge and a keen interest in software engineering to embark on a professional career. Eager to contribute to innovative projects and continuously develop technical skills.

Education

1. Bachelor of Science in Software Development

    KCA University

    Currently Enrolled, Expected Graduation: 2025

2. Kenya Certificate of Secondary Education (KCSE)

    Tengecha Boys High School

    Grade: B Plain

Skills

➢ Programming Languages: HTML, CSS, Python, PHP & java
➢ Web Development: Introduction to HTML, CSS, and JavaScript
➢ Software Tools: Familiarity with Git, GitHub, and Visual Studio Code
➢ Database Management: Basics of SQL
➢ Analytical Skills: Strong problem-solving abilities and attention to detail
➢ Communication: Effective oral and written communication skills

Projects

1) Portfolio

    Description: https://egidius-portfolio.netlify.app/

    That's the link to my portfolio I created myself and hosted in Netlify

2) Hospital management system

   Description: I created a hospital management system which handles patient prescription and addition of patients to the system using html & CSS and PHP. I then connected PHP to MySQL database
